

FRIENDS OF THE MACKENZIE CENTER

ENVIRONMENTAL EDUCATION SCHOLARSHIP PROGRAM

The Friends of the MacKenzie Center (Friends) is a non-profit organization made up of volunteers whose purpose is to encourage, perpetuate and promote environmental education. They work with the Wisconsin DNR to operate and maintain the facility and programs at the MacKenzie Center.

To encourage participation and to help make field trips affordable to all schools and other organizations the Friends have established a scholarship program. The scholarship program is intended to provide limited financial assistance paid directly to visiting groups based on their needs. If your group has reserved a date on our program calendar and you find that the trip may be in jeopardy due to limited finances, we encourage you to apply for assistance.

Step 1: Fill out the Scholarship Form and mail directly to the Friends of the MacKenzie Center. Make sure to fill it out completely. Scholarship applications must be submitted a minimum of 30 days prior to your scheduled visit in order to allow for necessary processing and the mailing of checks.

Step 2: The Friends of MacKenzie's Scholarship Committee will review all incoming applications as they are received and respond directly to the contact person named in the application within 10 working days of its receipt.

Step 3: Upon approval, a check will be mailed directly to the school or group named in the application. (Checks will be made out to the school or organization as well.)

Please Note:

- With limited funds, scholarships are based on your need and can be awarded as follows: Unguided Day Field Trips, a percentage of \$2/student; Guided Day Field Trips, a percentage of \$5/student; Maple Program, a percentage of \$5/student; Day Lodge Programs, a percentage of \$10/student; and Overnight Lodge Programs, a percentage of \$20/student, per night, with a maximum of \$1000.00 per school per year.
- Scholarships are awarded at the discretion of the Friends of the MacKenzie Center. Funding levels are based on need being measured as the percentage of the students attending that are eligible for free, or reduced, school lunch programs. For example, if your group of 50 students is coming for a day camp and 60 percent of the students qualify for free, or reduced school lunch programs the calculation would be 50 students, times 60 percent, times \$10.00 equals a \$300 scholarship.
- The scholarship committee reserves the right to verify the information shown on the application form.

Questions and Applications should be directed to:
